

COD 1 Part C: Communication with referring source

Key Features

- This EPA builds on the competencies of the Foundations stage to focus on generating a feasible management plan using CGA, including communicating prognosis, care planning, and managing transitions of care
- This EPA includes creating a prioritized problem list with a patient- and/or family-centred management plan that projects functional status trajectory of, and assesses for, rehabilitative potential.
- The observation of this EPA includes the completion of a CGA STACER* and is divided into three parts: management plan; communication with patient and family; communication with referring source

Assessors

Direct or indirect observation by geriatrician

Target

Collect 3 observations of achievement.
